

**ProfitFab® Gold** Frequently Asked Questions:

**Can I receive custom reports without having to go to Gold?**

Yes. Custom reports and utility procedures are available outside the core of ProfitFab.

**What is the process to incorporate custom changes in Gold?**

Supply our development staff with a request for quote detailing your program changes and we will review your request and send a quote reflecting the cost and delivery date. When approved, we will promptly start development. Depending on the complexity of your request, our development staff may be in constant communication with you during the development process. When the program changes have been completed, you will be sent the update to install on your system.

**I would like to go to ProfitFab Gold, but I really don't know exactly how to detail the changes in writing.**

Our knowledgeable development staff will be happy to help you with organizing the details unique to your situation.

**How long does it take to get a custom change incorporated into my ProfitFab®GOLD?**

Depending on the type of change or addition to your GOLD program, it may take a little as 24 hours to a few weeks.

**What does ProfitFab Gold cost?**

ProfitFab Gold requires the ProfitFab ERP core, therefore you must be a current ProfitFab ERP user or you must purchase ProfitFab ERP. Your specific customization needs will determine the cost of ProfitFab Gold. There is an initial one-time startup & programming fee, after that you only pay for the features you want, when you want them.

## ProfitFab® Gold

**ProfitFab® GOLD** - A solution that grows with you.

The health of any business is measured by its growth. But growing too fast can often be just as painful as not growing at all. Attracting that new "big" customer means more on the bottom line, more capacity through your shop, more new equipment to handle the capacity, and may be even new processes to define how you work. Shouldn't your system software be able to keep up too?

With **ProfitFab® GOLD**, your software grows with you and builds upon our core ERP solution to fit your exact needs.

**ProfitFab® GOLD** features:

- Tailor the program to meet specific requirements placed on you by your customers
- Customize data input screens to minimize keystrokes and reduce time-waste
- Customize program flow to meet specific requirements
- Reports tailored to your exact specifications
- Customize data export features

**ProfitFab® GOLD** is more than just an ERP solution; it is the most complete and comprehensive part of entry into the world of Manufacturing Management Solutions available. It is fully network compatible and will help streamline and manage your daily manufacturing operations.
